

## The Retrotones. Barfly day grunge-fest

THE RETROTONES - "A three piece hailing from the Eastern end of the District Line, The Retrotones name may suggests a 60s rock revival band, but their sound is more QOSA, Nirvana and Pearl Jam.....They have been together for a few years now and their chunky riff's, deep basslines and eerie melodies are beginning to gather attention" "THE RETROTONES -The Creation via US 60s punk... there's bits of Nirvana about proceedings too... musically could be compared to The Von Bondies and Wolf Mother also"; "THE RETROTONES - Garage meets grunge via pop...the missing link between Nirvana and The Creation"; "THE RETROTONES - The all embracing sound of 60s British freakbeat such as The Creation, The Action or The Yardbirds may be discerned herein. Bits of Nirvana, The Von Bondies and Wolf Motha too... very retro toned indeed and very, very good"; "THE RETROTONES- Where Wolf Mother/Von Bondies/Nirvana new Rock and Roll hits the garage." BARFLY - CAMDEN/2ND FEB/3PM/DAY FEST. PURPLE TURTLE - CAMDEN/24TH FEB/9PM.
